

How to read the salary guide

Listed vertically down the left-hand side of the guide are salary steps. An employee will move one step for each current contracted year. Listed horizontally across the top of each salary guide are the degree categories. An employee is eligible to move horizontally across the guide as he/she increases his/her level of education or experience.

- Find your degree category and contract year. Each is listed at the top of each page.
- Find your current (2020-2021) step. If you do not know your step, use your current salary. (Multiply your paycheck gross salary by 20(10 month employees) or 24 (for 12 month employees).
