

Early Childhood Advisory Committee

The Early Childhood Advisory Committee (ECAC) is responsible for reviewing the implementation of preschool and seeks to strengthen relationships with families, schools, local businesses, colleges/universities, and health agencies. The ECAC participates in community assessment of specific community needs, resources, and facilities as they pertain to the implementation of high-quality preschool services. The Early Childhood Advisory Council supports transition into the preschool program, as well as the transition of preschool students into kindergarten.

We seek equal parental participation from each PreK location on the district's ECAC. If multiple parents from each school are interested in participating in this committee, individuals will be chosen strategically in order to get the most comprehensive perspective in these discussions. Participation in this committee, or its subcommittees, is completely voluntary, yet essential to assure the Hillside PreK Scholars is meeting the needs of the entire Hillside community.

If you are interested in joining the Early Childhood Advisory Committee, please email:
